

Juaneda Hospitales named Official Medical Partner of the II Open Menorca ATP Challenger 100

The Balearic healthcare group strengthens its commitment to professional sport and will provide medical coverage for the tournament organised by BioSport Menorca.

Menorca, 16 March 2026.– Juaneda Hospitales will serve as the **Official Medical Partner** of the **II Open Menorca ATP Challenger 100**, which will take place **from 29 March to 5 April** at **Club Tennis Ciutadella**, following an agreement reached with BioSport Menorca, the company promoting and organising the tournament. The private hospital group will be responsible for the event's **medical coverage**, strengthening its position as a leading healthcare provider in the Balearic Islands while reinforcing its commitment to elite sport.

Medical coverage for an ATP Challenger Tour event

The Open Menorca ATP Challenger 100 is part of the **ATP Challenger Tour**, the circuit that serves as a stepping stone to the ATP Tour and Grand Slam tournaments, and is one of the most important international sporting events on Menorca's calendar.

The agreement links **Juaneda Hospitales** and its medical centres in Menorca — particularly **Juaneda Hospital Ciutadella**, which will act as the tournament's reference medical centre — with an event set to attract players, coaching teams and professionals competing at the highest level.

The healthcare group's strong presence across the Balearic Islands provides the tournament with a trusted medical environment and the capacity to respond in line with the standards required for ATP-level competitions.

Sport, health and medical excellence

The partnership further reinforces Juaneda Hospitales' strategy of supporting **professional sport as a platform to promote healthy lifestyles, prevention and medical excellence**, an approach already reflected in its role as official medical provider for organisations and competitions such as **RCD Mallorca, the Mallorca Cycling Challenge and the Balearic Golf Federation Women's Tournament**.

Professional tennis embodies values such as discipline, determination, resilience and comprehensive health care — principles that are also central to the hospital group’s healthcare model.

The agreement will position Juaneda’s centres in Menorca as the **primary medical reference for players, teams, families and visitors travelling to the island for the tournament**, while also strengthening the event’s integration within the local community and adding an extra layer of medical assurance.

José Luis Bosch, Director of Juaneda Hospitales in Menorca, said: *“Taking on the medical responsibility for the Open Menorca ATP Challenger 100 is both a professional challenge and a strong commitment to elite sport, while also helping to project Menorca internationally. Our centres will serve as the tournament’s medical reference, providing confidence and security.”*

Meanwhile, **Rodrigo Martín Velayos, CEO of Juaneda Hospitales**, added: *“We are proud to be part of the Open Menorca ATP Challenger 100 as Official Medical Partner, further strengthening our commitment to professional sport and medical excellence.”*

Toni Capó, Managing Director of BioSport Menorca, also highlighted the importance of the agreement: *“Having Juaneda Hospitales as the tournament’s Official Medical Service strengthens the organisational structure of the event and guarantees top-level healthcare coverage. It is a key element in meeting the requirements of an international competition and providing peace of mind for players and teams.”*

A strategic partnership with local impact

Through this collaboration, **Juaneda Hospitales and the Open Menorca ATP Challenger 100** reinforce a model of cooperation between **sport and healthcare** that enhances the organisational standards of the tournament while helping position **Menorca as a host destination for international sporting events with specialised medical support**.

The **II Open Menorca ATP Challenger 100** continues to expand its network of strategic partners, bringing together key players from the medical, business and sporting sectors in a project designed to grow within the professional tennis circuit.

About Juaneda Hospitales

Juaneda Hospitales is the **leading and most innovative private healthcare group in the Balearic Islands**, with an extensive network of medical centres and a strong track record in specialised and hospital care. Its model is based on clinical excellence, technological innovation and comprehensive patient care, placing the patient at the centre of its activity and positioning the group as a key player in the region's healthcare sector.
